Bishop nabs \$200k for MC business resource center

Rep. Tim Bishop (D-Southampton) announced Wednesday that he secured nearly \$10 million in the 2009 Omnibus Appropriations Bill for projects on Long Island that will help veterans find jobs, improve education, protect the coastlines, fight gang violence and improve clean water infrastructure.

Included in the funding is \$196,514 for the Middle Country Library Foundation, to be used for the Miller Business Resource Center at the Centereach branch.

“I am pleased that we have been successful in securing funding for these important projects on Long Island,” said Bishop. “As a whole, this legislation makes investments that offer short-term help for our economic problems and long-term solutions for our economic strength.”
